

First Day Assignment

Environmental Law in the Oil and Gas Industry

Fall, 2014 - Lynn Bortka

First class is the afternoon of Tuesday, August 26th. EVEN IF I HAVE HAD YOU IN ANOTHER CLASS, **as soon as possible** (do it now!) contact me at lynnbortka@gmail.com and provide/answer the following:

1. Your full name and the name you would like to be called in class. If other people ever mispronounce your name, please let me know how to pronounce it.
2. A **representative** head/shoulders photo(s) of how you will appear **in class**

Brad Pitt

How Brad Pitt
would appear
in my class

3. The email address(s) at which I will send material to you during the semester
4. A short description of “where you are” in the law school process such as 2L, LLM, FLLM, etc. and when you expect to graduate
5. Your undergraduate degree and/or course of study
6. In **no more** than 200 words, tell me what you know about environmental law.
7. What relationship do your closest relatives and friends have with the oil and gas industry?
8. What would you do for a living if you couldn’t be a lawyer? Why?
9. What type of part time/full time jobs have you had?
10. Where have you lived in the United States?
11. How long have you lived in Texas?
12. What languages, besides English, do you speak?
13. In what countries, besides the U.S., have you lived (and how long in each country)?
14. For those of you I have had in another class, skip questions 7 through 13, above, UNLESS your answers have changed (then tell me how they have changed) and tell me, in at least 200 words, what you did this summer and why you’re taking this class.

Do NOT send email to my UH email address. I check that in-box about once a year.

I look forward to meeting you! For those of you I already know, **welcome back** to another semester of cerebral hemorrhaging (and, yes, you have to send me another (different) picture AND all the above information).
