### Organization of the Course

**1 Course Description.** Welcome to one of the most important classes in the law school curriculum. More than any other class you will take during your time in law school, this course is about you and your future. The course is designed to acquaint you with the lawyer's obligations—both individual and as a member of the legal profession—to the world in which he/she lives. In addition to a discussion of ethical concerns inherent in the practice of law, we will cover lawyer regulation including the Model Rules of Professional Conduct. We also will consider what it means for you to become a member of the legal profession at a time of economic pressure, technological advancement and international competition. A lawyer's work largely turns upon relationships, namely between the lawyer and client, but also in the connections made with fellow lawyers, other professionals and society in general. This course is your opportunity to reflect upon the lawyer you will become as you build these relationships over the coming years. I consider it my professional responsibility to do all that I can in this course to ensure that you will be well-equipped for a rewarding and meaningful career in the law. I will demand excellence from you in every class; you should expect the same from me.

**2 Learning Outcomes.** During your time in this course, you will develop competence in the following:

- Knowledge and understanding of substantive and procedural law regulating lawyers' conduct;
- Legal analysis and reasoning, legal research, problem-solving, and written and oral communication related to legal ethics and professional responsibility;
- Exercise of proper professional and ethical responsibilities to clients and the legal system;
- Reflection upon how to integrate conceptions of professionalism and the lawyer's role into your career;
- Recognition of the trends that will influence the future of lawyers' work; and
- Other professional skills needed for competent and ethical participation as a member of the legal profession.

More details about the specific learning outcomes for this course are included below with the reading assignments.

**3 Assessment.** Your grade is based upon class participation (25%), and a final exam (75%). Class participation includes performance during class discussion and completion of occasional

class activities designed to provide you with formative assessment to enhance your learning during the semester. A rubric for class discussion evaluation will be distributed on the first day of class, along with details about the final exam, date TBA.

Not only will attendance at every class inevitably help your grade, but it likely will leave you better prepared for the MPRE (more on that below). The Law Center requires you to attend 80% of this course. I will monitor your attendance with a sign in sheet. ***Do not contact me asking about your attendance record; this is your responsibility to track.*** However, if you will be missing classes beyond the amount allowed due to religious, health, or interviewing reasons, please send an email to document the reason for the absence.

**8 The MPRE.** For admission to the bar of most states (including Texas), you must pass the Multistate Professional Responsibility Exam (MPRE). The MPRE is a multiple-choice exam covering the ABA Model Rules of Professional Conduct and Code of Judicial Conduct as well as generally accepted principles established in federal and state cases regarding the conduct of lawyers. ***This class will cover a number of subjects included on the exam and will provide a useful background; however, this is not an MPRE review course. Before you take the MPRE, I STRONGLY encourage you to take a review course in addition to this class.*** More
