Shell Energy Scenarios – Use in Strategic Decision on Bio Fuels

March 26, 2012
6 – 8 p.m.
Cemo Hall, Stubblefield Auditorium

Richard Oblath is the vice president, Downstream Portfolio Americas and Global PCRO at Shell Downstream Inc. Oblath is accountable for all merger and acquisition activities for Shell Downstream in the Americas and for managing integration of downstream transactions globally as well as post-closing rights and obligations.

Oblath joined Shell in 1992 as Technology Director of the North American PET business and was soon appointed General Manager. Prior to his current appointment, Oblath was General Manager, Downstream Portfolio with a global remit to lead large complex projects. Oblath led strategy and portfolio activities for Shell Lubricants and was Manager for mergers, acquisitions and projects for Shell Chemicals. Before joining Shell, Oblath held appointments with Goodyear Tire & Rubber Co. in various roles including Manufacturing Director, Technology Director and President of a JV.

Oblath has lived and worked in the UK, Luxembourg, Japan, Singapore and the U.S. and has led mergers and acquisitions transactions with different counter party types and in multiple countries and cultures.

Oblath attended Nottingham University and received a Bachelor’s of Science with Honours in Metallurgy and Materials Science and a received his Ph.D. in Electrochemistry from the Royal Military College of Science. Oblath is married with 2 children and is a dual U.S. / British citizen.
