	MFN GATT I	“Like” products (like MFN but for domestic products) GATT III	Art. 33(b) protection of human, animal and plant life	Art. 33(g) exhaustible natural resources	SCM (Agt) – 1)financial; 2)governmental body 3) substantial advantage	TBT – disallowed unless not discriminatory & it’s the least burdensome alternative to achieve objective
LCRs Local Content Rules	Limited applicability if neutral	“like” – domestic & foreign on LCR	Allowed if “necessary” & “materially contributes” to objective	Chapeau: (1) strict; not be arbitrary nor discriminatory justified (2) choose least burdensome on trade; BOP on Nation	It depends	Can be allowed, as long as it meets the standard
BTAs Border Tax Adjustments	“ ”	“like” – if the carbon content of the product itself is different, then you can put a carbon tax; however, if it’s a product process, then it’s an open question	“ ”	“ ”	Destination principle – you want to measure dep	Ø
Subsidaries/ Feeding Tariffs	Subsidies are permitted as long as they’re treating equally the parties involved. If you have a LCR as part of your subsidy, then it’s open to question	Subsidies are permitted as long as they’re treating equally the parties involved. If you have a LCR as part of your subsidy, then it’s open to question	“ ”	“ ”	□	Ø
Ecolabels	Ok if neutral		“ ”	“ ”	Is it even applicable?	It can, but still an open question?

*This is the general multinational set; Nations can create their own, as well as create new ones with other Nations \therefore this is just the baseline
