Join the Hackathon Competition!
NORTH AMERICAN
STUDENT HACKATHON
COMPETITION

OF AN OIL AND GAS INDUSTRY CHALLENGE

UH Energy and the Energy Coalition will host a student hackathon on November 4-5 on an Energy Industry challenge. Register before October 27 to be grouped into interdisciplinary teams.

At the awards ceremony on November 15, winners will have an opportunity to win cash prizes, network with Industry and Government officials and meet the Energy Ministers of Mexico, Canada and the United States.

Students entered into the competition will receive reading material in advance of the competition to help them get familiar with the type of challenge they will attempt to solve in the competition.

During the competition, Mentors will be available to answer questions and provide some guidance to the students.

To register your participation, please fill out the submission form:

[uh.edu/energy/form]
Represent the University of Houston by competing against University of Calgary (Canada) and Technological University of Monterrey (Mexico)!

Former Texas Governor and current US Secretary of Energy Rick Perry, media, and other energy industry leaders will be in attendance!
