DEAN’S MESSAGE

The power of a legal education is seen in the skills and knowledge acquired to facilitate the creative process, whether involving words written on a page or software programs controlling a global communications network. Explosive developments in technology and commerce are continuously transforming the laws of intellectual property and information law.

The time is right to learn from the best, and the place to do that is here at the University of Houston Law Center. Our Intellectual Property & Information Law Institute is consistently ranked in the nation’s Top 10, according to U.S. News & World Report, and is known throughout the world for the strength of its faculty, scholarship, curriculum, and graduates. Students at the Law Center learn against the backdrop of Houston, the nation’s fourth largest city, and benefit from the wealth of intellectual capital in the area as the region thrives as an epicenter of business — domestically and in the global marketplace.

Whether your interest lies in traditional areas of intellectual property law — patent, copyright, trademark, trade secret — or the rapidly evolving field of information law — internet, software, electronic commerce, databases — IPIL/HOUSTON has what it takes to help you realize your goal of a successful career in this growing field.

Please spend a few minutes reading about all we have to offer and then come join us.

Leonard M. Baynes
DEAN, PROFESSOR OF LAW, AND MEMBER, IPIL AFFILIATED FACULTY
A LEARNING CENTER AT AN INTERNATIONAL CROSSROADS

As part of the UH Law Center, accredited by the American Bar Association, the Institute for Intellectual Property & Information Law (IPIL) is located in one of the largest and most diverse metropolitan areas in the United States. Houston is among the top five markets in the United States for intellectual property and information law, with thousands of these specialists working in corporations, law firms, and universities. Indeed, the Houston Intellectual Property Law Association is among the most influential IP bar organizations in the country, boasting many leaders of national IP groups along with its active amicus and continuing legal education activities.

In addition to world-class law firms serving clients from Houston to Hong Kong and from Silicon Valley to Singapore, Houston hosts numerous multinational corporations and organizations that generate intellectual property: ExxonMobil, Shell, NASA, many information technology companies, and the distinguished institutions of the Texas Medical Center are just a few. UH’s strong presence in the region produces significant research opportunities for faculty and students alike.
APPROXIMATELY THREE DOZEN IPIL-RELATED COURSES ARE OFFERED REGULARLY at the UH Law Center. All of these courses meet the degree requirements for the Doctor of Jurisprudence (J.D.) degree, and most apply to the Master of Laws (LL.M.) degree in intellectual property and information law.

J.D. PROGRAM
The UH Law Center offers both full-time and part-time programs leading to the J.D. degree. J.D. candidates must complete 90 credit hours and may select intellectual property and information law courses that reflect their individual interests. Students interested in applying to the J.D. Program should contact the Office of Admissions for an application at 713.743.2280 or lawadmissions@uh.edu.

LL.M. PROGRAM
The LL.M. Program provides an academic environment for practicing lawyers who wish to expand their knowledge of intellectual property and information law. Only a limited number of candidates are accepted for full-time or part-time studies, and admission is highly competitive. Applicants from the United States must hold a J.D. degree from a law school accredited by the American Bar Association. Lawyers who hold law degrees from foreign countries must meet academic and English-language standards for admission.

LL.M. candidates must complete 24 credit hours of approved courses (including a minimum of 15 credit hours of IPIL courses), with a qualifying cumulative grade point average. An optional thesis is available. Class scheduling and availability vary from year to year. Most IPIL courses are offered in the fall and spring semesters. Generally, IPIL courses are not available in the summer. For Law Center J.D. students, a joint J.D./LL.M. program is available. Thesis supervision occurs during the fall and spring semesters only. For details about the LL.M. Program, visit www.law.uh.edu/llm.

VISITING STUDENTS
Second- and third-year law students in good standing at an ABA-accredited law school are eligible to spend a semester at the UH Law Center and to enroll in its IPIL curriculum as well as other upper-division courses. Participants are accorded “visiting” status and receive their law degrees from their home schools. Students interested in visiting the UH Law Center should contact the Office of Admissions at 713.743.2280 or lawadmissions@uh.edu.

TRANSFER APPLICANTS
Students also have the option of applying for transfer to the Law Center. Transfer admissions are highly competitive. First consideration is given to applicants who have performed extremely well in their first year of law school. Applicants must have completed all or most of the Law Center’s first-year required courses. Successful applicants may transfer a maximum of 30 semester hours of credit, with hours rather than grades to be noted on their final UH Law Center transcripts. Other intake conditions apply. Students interested in transferring to the UH Law Center should contact the Office of Admissions at 713.743.2280 or lawadmissions@uh.edu.

ADVANCED TOPICS IN COPYRIGHT LAW SEMINAR provides students the opportunity for in-depth exploration of topics of interest to them, including technological, international, and historical problems in the field of copyright law.

ADVANCED TOPICS IN SOFTWARE PROTECTION provides students with a holistic view of software protection, focusing on legal issues concerning the protection and transaction of computer software, particularly with respect to trade secrecy, patent law, digital copyright, and licensing.

ADVERTISING AND MARKETING LAW covers both the law and commercial perspectives concerning the advertising and marketing industry. This survey includes treatment of issues from consumer protection, privacy, trademark, business torts, constitutional law, copyright, privacy, and other areas of law important to advertising and marketing.

ANTITRUST LAW explores the law and economics of antitrust policy and the methods for enforcing antitrust policy. Emphasis is placed on the issues of monopolization, mergers, price fixing, and state and local government actions impacting the competitive process.

BIOTECHNOLOGY AND THE LAW examines ethical, legal, and policy issues surrounding new medical technologies related to genetic information, including consideration of regulatory frameworks to ensure appropriate incentives for research and commercialization of biotechnologies.

COMMUNICATION LAW examines regulation and policy concerned with various forms of mass media in the U.S., including radio and television, as well as telecommunications regulations, law, and policy.

COMPUTATIONAL LAW enables students to develop interactive models of legal issues or systems. Likely topics include decision theory, game theory, finance, statistics, network analysis, and computational linguistics.

CONSUMER LAW examines consumer law issues in both traditional and electronic/internet marketplaces, including an emphasis on the Texas Deceptive Trade Practices Act.

CONTRACT DRAFTING helps students prepare for drafting, reviewing, analyzing, explaining, and negotiating contracts. Typical contracts considered may include agreements involving employment, leases, distribution, services, licenses, stock-options, change-of-control, arbitration, and/or settlements.

COPYRIGHT LAW deals with the regulation of creative works of authorship (literature, music, art, computer programs, etc.) under U.S. Code Title 17.

CRIME IN THE INFORMATION AGE examines the intersection of two fields, criminal law and the law of information and intellectual property.

DATA PROTECTION IN CORPORATE PRACTICE covers the basic principles of data protection and privacy law as applied to the conduct of corporations.

DIGITAL TRANSACTIONS covers issues in software and online licensing, including the nature of remedies, warranties, and other obligations that arise from such transactions.

eDISCOVERY examines the increased impact of technology in the legal field, including significant changes in the way litigation, and specifically discovery, is handled.

ENTERTAINMENT LAW blends concepts and skills derived from intellectual property, contracts, and torts, with emphasis on recent Internet-based developments in the relevant entertainment industries.

ENTREPRENEURSHIP examines entrepreneurship and specifically considers the challenges and strategies typically encountered in becoming a successful entrepreneur, with particular emphasis on technology and the law relating to it.

GENETICS AND THE LAW examines ethical, legal, and policy issues surrounding new genetic technologies.

INFORMATION PRIVACY LAW SEMINAR allows students to focus on such topics as privacy and the media, privacy and law enforcement, surveillance law and national security, health and genetic privacy, associational privacy and anonymity, and privacy of commercial data.

INTELLECTUAL PROPERTY ADVANCED TOPICS SEMINAR is a treatment of specialized subjects in intellectual property law.

INTELLECTUAL PROPERTY LAW SURVEY covers domestic intellectual property laws — patent, copyright, trademark, and trade secret — through statutes and cases, with attention to the needs both of non-specialty students desiring a one-time overview of the basics of IPIL law, and of soon-to-be IPIL specialists seeking more detailed study.

IPIL COURSES TYPICALLY OFFERED
INTELLECTUAL PROPERTY STRATEGY AND MANAGEMENT examines the legal and managerial issues facing an intellectual property or information-based organization from its start-up phase through either an initial public offering (IPO) or an acquisition by another firm.

INTERNATIONAL INTELLECTUAL PROPERTY examines both international IP law itself and comparative aspects of IP law among major trading countries and regions of the world.

INTERNET LAW is a survey of legal issues arising from the rapid growth of Internet and other online communications. Coverage includes intellectual property, First Amendment, criminal, and privacy issues.

INTERSESSION COURSES, taught during the winter break, consider a variety of currently topical subjects such as data security, database protection, and privacy, as well as issues posed by pending and recently decided major cases.

LICENSING AND TECHNOLOGY TRANSFER examines techniques for licensing rights in technology and the ways of employing and transferring such rights.

LL.M. THESIS COURSE affords IPIL Master of Laws candidates the opportunity to produce thesis quality scholarship, under the supervision of IPIL faculty, in an area of intellectual property law or information law.

PATENT LAW examines the substantive law of patents as a means for protecting inventive ideas. The course focuses on conditions necessary to obtain a patent, infringement, and enforcing patent rights through patent litigation.

PATENT PROSECUTION considers substantive law and procedures governing the patent application process and emphasizes practical application of the rules to real-life situations.

PATENT REMEDIES AND DEFENSES studies issues commonly arising in modern patent litigation. The course examines necessary parties, remedies, and affirmative defenses.

PRIVACY AND DATA PROTECTION covers the basic principles of privacy and data protection law, including federal privacy statutes relating to surveillance, record-keeping, and health information, as well as state privacy statutes, the privacy-related activities of the Federal Trade Commission, and the privacy law in the European Union.

PROCEDURE OF PATENT LITIGATION provides hands-on experience with issues that patent litigators face in day-to-day trial preparation, examining a hypothetical patent case from inception, through the Markman hearing, to trial, with additional attention to the relationship between district courts and the Federal Circuit in patent litigation.

SPORTS LAW treats topics such as representation of athletes in contract negotiations and endorsements, related IP matters, the player-club contractual relationship, anti-trust and collective bargaining issues, and sports tort liability.

TRADE SECRETS surveys the practical aspects of trade secrets as they relate to protection by contract and operation of law, relationships of the parties, public law constraints, adversarial considerations, and licensing.

TRADEMARK AND UNFAIR COMPETITION considers the evolution and practice of trademark and related unfair competition law, with emphasis on litigation strategy.

TRADEMARK PROSECUTION provides hands-on training and instruction on the procedure of trademark prosecution, from pre-application searching through the filing of renewal documents ten years after registration. Discussion will focus on statutory law, case precedent, and the USPTO’s Trademark Manual of Examining Procedure.

THE HONORABLE NANCY F. ATLAS INTELLECTUAL PROPERTY AMERICAN INN OF COURT

The Atlas IP Inn includes in its mission participation by law students studying intellectual property law. Law students who become members of the Atlas IP Inn have the chance to participate in several dinners each year, and work with practicing IP attorneys as part of a pupillage group that presents to the dinner audience a topic concerning intellectual property or information law. See http://inns.innsofcourt.org/for-members/inns/the-honorable-nancy-f-atlas-intellectual-property-american-inn-of-court.aspx.

STUDENT INTERESTS

STUDY ABROAD OPPORTUNITIES are available to Law Center students. The North American Consortium for Legal Education (NACLE) at UH offers exchanges with member institutions in Canada and Mexico. UHLC J.D. and LL.M. students also have traveled to Europe to exchange ideas with counterparts from the Max Planck Institute in Munich and to tour the World Intellectual Property Organization and the World Trade Organization in Geneva.

HOUSTON INTELLECTUAL PROPERTY LAW ASSOCIATION

HIPLA involves law students in a variety of its activities, including sponsorship of events of student interest, complementary attendance at professional monthly lunch presentations on intellectual property law topics, and administering a scholarship program for students of IP law. In addition, HIPLA offers student membership at nominal cost. See www.hipla.org.

IPSO is the organization for students of intellectual property and information law at the University of Houston Law Center. It promotes awareness of intellectual property and information law issues at the UH Law Center, provides networking opportunities among students and intellectual property and information law practitioners in the community, and collaborates with IPIL in carrying out its various programs. See www.law.uh.edu/organizations/ipso.
ANNUAL STUDENT COMPETITIONS

IP students of the Law Center participate in many competitions, both locally and nationwide:

- AIPLA Giles Sutherland Rich Moot Court Competition
- INTA Saul Lefkowitz Moot Court Competition
- AIPLEF Jan Jancin Award
- ABA/BNA Award for Excellence in the Study of Intellectual Property Law
- AIPLA Robert C. Watson Competition
- Federal Circuit Bar Association George Hutchinson Writing Competition
PATSTATS.ORG

Online Patent Litigation Statistics

PATSTATS.ORG tracked case outcomes for 40 commonly arising issues in modern U.S. patent litigation. Offered as a free public service for courts, scholars, and practitioners of patent law, this resource provides research information on decisions rendered each quarter, from 2000 to 2013. Decisions include the reported cases of the District Courts, the Court of Federal Claims, and the International Trade Commission. Reported and unreported Federal Circuit decisions also are incorporated.

PATSTATS.ORG issues include Validity Decisions, Enforceability Decisions, Procedural Defenses, Infringement Issues, Damages Calculations, and Special Factors.
To view these materials, visit www.patstats.org.

WATERCASES.ORG

Spirit Over the Waters

WATERCASES.ORG is a website containing Professor Janicke’s two legal archival libraries and a history article related to each. One library concerns the interstate disputes over diversion of Lake Michigan’s water for use in wastewater removal by Illinois. The second library is about the patent infringement cases of the 1920s and 1930s brought by a British patent owner against the cities of Milwaukee and Chicago. The patents covered the basic aspects of the activated sludge method of wastewater treatment, now the dominant method used worldwide. The patent applications were filed in the period 1914-1916.
To view these materials, visit www.watercases.org.

PROGRAM ON LAW AND COMPUTATION

Applying Advanced Computational Techniques to the Study and Understanding of Law

The Program on Law and Computation studies the ways in which advanced computation can further the understanding of law. Its focus includes empirical methods, statistics, finance, actuarial finance, game theory, decision theory, network theory, computational linguistics, data mining, theories of computation, artificial intelligence, machine learning, and the economic analysis of law.
To learn more, visit www.law.uh.edu/polac/homepage.asp.
LAW SCHOOLS ARE BUILT AROUND THEIR LIBRARIES.

The O’Quinn Law Library offers one of the region’s leading legal research facilities.

With a combination of print and electronic resources, the library supports the research needs of UH Law Center students and faculty, with exceptional depth in the IP, health law, tax, international law, and energy and environment specialties of the Law Center. The Judge Brown Admiralty Collection, Frankel Rare Books Library, and U.S. Government Depository documents round out the UH Law Center’s print collection.

The law library provides many specialized online databases, supplying information not available in the popular legal research services or in print. The integrated library system provides access to all the library’s print and online resources, as well as the research collections of the UH Libraries. Above all, our highly trained, service-oriented lawyer librarians ensure that students and faculty receive the full value of our exceptional legal research library.
