

**CLASS STANDING INFORMATION
(THROUGH SPRING 2020)**

The Law Center only provides individual class standings upon graduation. However, at the conclusion of each Fall/Spring semester a percentile ranking is published based on entering class year so that individual students may determine their general position within the group of students with whom they entered the Law Center (transfer students should check with the Office of Student Services for their class year).

Percentiles based on 5% increments down to the 50th percentile, and 10% increments thereafter are published. In addition, the top ten students of each entering class are notified by letter of their individual class rank.

Individual graduating class rankings for the 2017 Entering Class will be available upon request after the graduating class is finalized in September 2020. The graduating class is composed of the December 2019 and the May and August 2020 graduates.

Percentile rankings through the Spring 2020 semester are as follows:
