ALTERNATIVE ENERGY AND CARBON SEQUESTRATION

Please read through the Syllabus first, to get an idea of what the course will cover. Once you have done that, and you are willing to move forward, then read the Student Information Form, which requires you to fill out a form and provide some information and a photograph. You will need to do that in order to access the course materials, which will be sent to you as Adobe portfolios.

If you have questions about the course or the materials, you may send me a text at the number below, or you may email me at my email address.
