GENERAL INFORMATION – COURSE COMPONENTS

1. LECTURE/DEMONSTRATION (Large Group Session)

   All of the students will meet together each week in a large group to hear a lecture/demonstration on the trial skills that will be worked on the following week’s small groups. The lecture/demonstration will be held each Tuesday beginning at 8:00 pm, which is immediately following the Small Group Sessions.

2. PERFORMANCE (Small Group Session)

   The primary course emphasis will be on you learning trial skills by assuming the role of trial counsel in assigned simulation problems. Students will be divided into small groups that will meet each week to work on the simulation problems. All of the small groups meet Tuesdays from 6:00 to 8:00 pm.

   You will represent either the plaintiff/prosecution or the defendant in the assigned problems for each week. Each week’s assignment will depend on whether you have been designated an “A” or a “B”. Your A/B assignment will be emailed to you following the first class meeting. You will be emailed the names of the facility members with whom you will be working during the semester, the room in which you will be meeting and the names of the other students in your small group.

   During the Small Group Session, each student is expected to be prepared to perform as trial counsel regarding the assigned material. Each student is expected to perform at least once as trial counsel during each Small Group
Session. Students who are not performing as trial counsel will act as witnesses.

Students are required to wear courtroom attire unless otherwise noted on your schedule. No hats will be permitted.

3. VIDEO REVIEW

Most class performance as trial counsel will be recorded. You will be required to review your recorded performance with one of your instructors during the class session each week except. You should also view the recorded performance on your own to assess areas on which you need to work.

4. DEMONSTRATION VIDEOTAPES

The Blakely Advocacy Institute has a large videotape library of skilled trial lawyers performing demonstrations of many of the same skills you will be using during the course of the semester, although not of the same problems you will be preparing. Watching these tapes is a valuable way of learning and improving the skills illustrated. You may check out these tapes for viewing in the BAI office.

5. TRIALS

There will be two trials during the semester. The first is a non-graded Bench Trial and the second is a full jury trial that will serve as a final exam. The Bench Trials will be held on Saturday, February 25, 2012. Final Jury trials will be held on Saturday, April 21, 2012. Please mark your calendars now.

6. TRIAL OBSERVATION

You are required to observe a jury trial during the course of a semester. You are not required to see an entire trial. You must observe a minimum of 6 hours that includes two out of the following: Voir dire, opening statements, direct and cross of two witnesses, jury charge conference, or closing arguments. While you need not see all parts in one trial, you must see compete parts; i.e., you must see both the prosecutor’s and defense counsel’s opening statement, or both the plaintiff’s and defense counsel’s closing argument.
By the date of the final jury trial, you must submit a paper, not exceeding five pages. The paper should include the date and time of your observation(s), the court, the judge, the style of the case, a brief explanation of the case and a critical description of what you observed including your comments on what you thought the lawyers did that was effective and ineffective. The paper is to be submitted via email to the adjuncts assigned to your small group. Upcoming trials will be announced periodically during the semester; however that information is for your convenience. All students are required to independently identify trials to observe.

7. ATTENDANCE AND GRADING

Attendance at the Lecture/Demonstration and Small Group sessions is mandatory. One adjunct from your small group will attend every lecture. That adjunct will take attendance and report attendance for both the Small Groups and the Lecture/Demonstrations. Unexcused absences will reduce your final grade.

The final grade for the course will be based on your performance in the Small Group sessions, your performance on other assigned work such as the observation paper, and your performance in the final jury trial. There will be no written final examination. Failure to demonstrate preparedness for the Small Group sessions can/will reduce your final grade. Failure to submit an acceptable trial observation paper will reduce your final grade. The performances in the Small Group sessions will count for approximately half of your grade. Your performance in your final trial and on other assigned work will count for the other half of your grade.

8. ADDITIONAL READING

There are a number of excellent references and texts you may refer to as a supplement to the assigned text. The following titles are on reserve in the library.

ABA, Litigation Manual, Trial
Bergman, Trial Advocacy in a Nutshell
Jeans, Trial Advocacy
Hegland, Trial and Practice Skills in a Nutshell
McElhaney, Trial Notebook
9. GENERAL RULES FOR THE SMALL GROUPS

A. You must be prepared to play the role of the witness for all problems for which you are assigned and to prepare and conduct a direct or redirect examination.

B. We will follow the Texas Rules of Evidence. Review the Rules as necessary before class and bring a copy of the Rules to class.

C. Conduct all examinations of witnesses while seated at the counsel except when it is necessary to stand.

D. Follow the ALL OBJECT RULE. Everyone, except the witness should object whenever there are legal grounds for doing so. Do not hold back for tactical reasons unless otherwise instructed.

E. When objecting or otherwise addressing the judge, stand up immediately and remain standing until the judge rules on the objection. If the witness has given an adverse answer before you had time to object, remember to ask the court to strike the answer and to instruct the jury to disregard the answer.

F. All objections should be addressed to the judge and should include a very brief statement of the reason for the objection. Do not argue unless you are invited to do so by the judge. If argument is requested, approach the bench (constructively unless instructed otherwise) to present your argument. Counsel should present their argument and responses to the judge and should not engage in discussion with each other.

G. You should be prepared to conduct the examinations and other assigned exercises in their entirety, although usually you will be able to conduct only a portion. You usually will be expected to examine a witness or perform for seven to ten minutes. The next performer may be asked to pick up the witness where previous counsel left off.
